WOMEN LIKE US

WOMEN LIKE US CLOTHING

A brand new clothing line aimed at fashionable women who like to get dressed and go. Women Like Us launched a few weeks ago and its range of tunic style tops and shirts are already being snapped up by the dozen.

Set up by Tina Malhame and Judith Clutterbuck for 'women like them,' this flattering and easy to wear collection reflects the founders' own their busy lives as working mothers.

These women know their stuff when it comes to great clothing, and not just because they would wear it themselves. While Judith runs her own distribution company, Tina has designed clothing for all the most successful high street brands including Per Una, Next and Monsoon and really knows what women want when it comes to stylish yet relaxed clothing for women.

FLATTERING & EASY TO WEAR

As a result, the Women Like Us range is both flattering and easy to wear, suitable for young, fashionable mothers and casual dressers who nonetheless like to keep an eye on style. Available in sizes 10 to 22, this wearable collection is great for women of all shapes and sizes.

At the moment the Women Like Us range focuses on elegant linen, silk and cotton tunics and shirts with a choice of half or full length sleeves, though Tina and Judith plan to add accessories, jewellery and an equally snappy range of knitwear for winter.

CHOICE OF COLOURS

A choice of different colours are available, including red, white, blue and raspberry pink, to name a few, making them great for different stages of the year, from pale stripes or turquoise in spring, hot pinks in early summer or sparkling whites that help keep the heat off when the weather really heats up.
