**COLLECTIONS**

**AUTUMN / WINTER 2010**

**CRUISE / SPRING / SUMMER 2011...**

If you want to know what the smart woman on the go treasures almost more than any other garment, just take a peek in her wardrobe, and you will see a row of crisp white cotton shirts in a variety of styles. At this time of year nothing is more useful to help make that transition into autumn, when the key to clever dressing is layers. Add a touch of elegance and layering with a 100% Italian made cashmere poncho in a range of colours including this season's must have blonde camel, grey, black, pale rose and pale blue. Boost a casual day wear outfit or add a touch of glamour to evening wear. Easy to fold away into the smallest of handbags, this piece can be taken anywhere and would be a treasured Christmas gift retailing at £125.

Autumn is the time of year when smart women think about versatile day to evening wear items that can be dressed up or down for office, for school parties, for Christmas lunches and events.

Take this beautifully cut jersey dress in hot red or black with gentle v neck and crossover bodice, which skims and flatters the body, completing this season's 'Mad Men' picture. Co ordinate this stylish number with the silk wrap scarf cardi for a double dose of refined glamour.

Red, the colour of passion, translated into a simple but sexy jersey crossover bodice cocktail dress, inspired by the hottest TV show in town, Mad Men, completes the autumn Christmas collection.

The spring collection has gone from strength to strength and the capsule collection for autumn has a simple and elegant handwriting that is for real women - womenlikeus. Sizes range from 10-22 and are retail from just £30. For cruise, or early spring try one of the easy to wear cotton tops in spring's catwalk favourite peach and pearl grey.

These versatile tops make a great beach cover up and are smart enough to wear for lunch poolside or a casual holiday supper – ideal for the Christmas dash to the sun.
